

## TRAINING GOALS:

The three day, multi-disciplinary CEU/CE training for RNs, APRNs, treatment educators, case managers, social workers, mental health professionals and other clinical providers serving communities of color will:

- Provide up-to-date information regarding HIV disease pathogenesis, treatment, understanding pharmacology results, adherence issues, opportunistic infections and pipeline medications;
- Improve communication skills of service staff providing clinical treatment and prevention education services to persons living with HIV/AIDS;
- Increase capacity of participants to deliver patient/client-centered treatment education services;
- Increase knowledge among participants about HIV treatment options

This training is supported by the generous support of Merck & Co, Gilead Sciences, GlaxoSmithKline, Pfizer, Inc and Tibotec Therapeutics.

**Training:** APLA Treatment Education Program with USC–Pacific AIDS Education Training Center. Clinical supervision provided by the UCLA Center for Clinical AIDS Research & Education.

This training offers CEs for MFTs and LCSWs through APLA Mental Health Services/California Board of Behavioral Sciences; CEUs for RNs through UCLA/Pacific AIDS Education Training Center/UCLA School of Nursing.

# Treatment Education Training

**AIDS Project Los Angeles**

**March 30 – April 1, 2010**
